

20 kW POWER MODULE

FOR INDUSTRIAL VEHICLE CHARGING

Technical Ratings

Item	Specification
DC Output	
Rated output power	20kW
Output current range	≤200A, see U/I curve
Rated output voltage	100Vdc
Output voltage range	30~105Vdc
Output voltage control accuracy	≤±0.5%
Output current control accuracy	≤±1.0%
Efficiency	≥94.5%
AC Input	
Grid connection	U,V,W,PE
Input voltage - rated	400/480Vac
Input voltage range	260~530Vac
Input current	≤40A
Input frequency range	50/60Hz
Power factor	≥0.99
THDi	≤5%
Environment	
Operating temp. range	-40~55°C, w/o derating; 55~75°C, derating
Operating humidity range	0~95%
Operating altitude range	0~2000m
Mechanical Data	
Dimension (W*D*H)	240*85*370mm
Weight	9kg
Communication	CAN
Certification	CE
Output U/I curve
